Application Criteria:

For construction related programmes/projects, you must be able to provide the following documents before any consideration is given to your application:

1. Deed and cadastral sheet providing proof of ownership
2. Complete set of Drawings (Architectural, Structural, Mechanical and Electrical) prepared by registered professionals. If they are prepared by registered professionals, the designs are supposed to be to the relevant International Building Standards for the respective disciplines and the likelihood of design errors will be minimized. The Bank will not invest in a structure that may subsequently show signs of distress due to poor design practices.
3. Quantity Surveyor's Estimate and Contractor's Quotation
These documents will confirm pricing consistencies and can be used as a yardstick to facilitate omissions and additions should this become necessary.
4. Arrangements for Construction Administration
Even the best plans can produce an unsatisfactory result if not properly administered; therefore it is imperative that competent construction administration is considered.

Please advise if you disagree with any of the following as these must be met in order for your application to be approved and will form the basis of a formal contract for signature:
